

Release notes

On premise software release

Version 5.6.5

26 July 2022

- We made some tweaks to better support pre-authorisation transactions.
- We've added extra security to the way we handle a merchant's Linkly EFT-Server credentials.
- Zeller terminals are now supported, with new installer just for Zeller terminals.
- To access our new features and improvements, please install the latest software version [from our website](#).
